Re: Petition submitted by On-Site Systems, Inc. to include Ussery #1

Dear Mr. Waddell:

On March 8, 2000, On-Site Systems, Inc. submitted a petition to amend its Certificate of Convenience and Necessity to include the Ussery #1 Development in Sevier County. (Docket # 00-00198)

In November of 1999 the engineer for the developer had requested that Pigeon Forge, the nearest city, provide sewer service to the Ussery #1 Development. At that time, the city informed him verbally that they would not provide sewer service to the development. He requested a letter from the city and it arrived this week.

The attached letter states the policy of the city regarding sewer service. Please include this additional document with our petition.

If you have any questions, please give me a call.

Sincerely,

Charles Pickney, Jr.

Mr. Michael Hines, M.S., P.E.
Principal
Southeast Environmental Engineering, LLC
1920 Breezy Ridge Trail
Concord, Tennessee 37922

Dear Mr. Hines:

In response to your November 1999 letter, regarding sewage collection, treatment and disposed services to Eagle Crest Chalets, Hidden Springs Resort or the Ussery No. 1 property on Patterson Lead, I wanted to advise you the city's current policy.

Presently, the City of Pigeon Forge does not allow any resident or any development outside the corporate limits to tie into the city's system. Because of the growth occurring inside the city, I do not foresee any change in this policy any time soon.

If you have any questions any time, please call Director of Public Works Mark Miller or myself.

Sincerely,

CITY OF PIGEON FORGE

Earlene M. Teaster
City Manager
